

Wazdan for U.S. Operators

# Advance Your Offering to Lucrative New Heights

The best online slots you know and love,  
just more engaging, more enticing,  
and more innovative.

# Wazdan Now Brings 10+ Years of iGaming Excellence to U.S. Operators

We're proud to bring our **internationally recognized titles**  
and **performance boosting suite** to the U.S. market.

## What We Bring

- ▶ An ever-growing list of approved slots tailored to elevate U.S. online casino grids
- ▶ High, worldwide reputation across operators, licensing authorities and player base
- ▶ A fully integrated, continuously enhanced player engagement suite
- ▶ Mobile-first design philosophy
- ▶ Expert tech support from a leading slot-developer team
- ▶ Dedication to innovate with 12+ new slots per year and customizable tools and features

## What We've Achieved so Far

- ▶ **150+ HTML5 games** optimized for all screen sizes
- ▶ Numerous awards, including the Slot Game of the Year at The Malta Gaming Awards
- ▶ 150+ employees dedicated to helping igaming operators succeed
- ▶ Certified operation in 20+ regulated international markets
- ▶ Licensed in New Jersey, Michigan, West Virginia, Pennsylvania, and Ontario, Canada
- ▶ ISO27001 - International information security standard

Fuelled by passion, we believe in **constant innovation**, elevating casino grids with **top-performing online slots** and tools that **boost player engagement**.

## More **Engagement**

Online casino grids need to stand out from hundreds of other providers and players constantly seek new ways to engage. That's why we offer added-value promotional tools (Cash Drop), mobile-first experiences, and greater control over gaming experience with our trademarked Volatility Levels.

## More **Freshness**

Wazdan games load fast and run smoothly on mobile and desktop. HTML5 allows us to deliver the newest possible features and performance specs in game design. With an ever-growing list of newly launched titles and features every month, the Wazdan portfolio helps operators stay fresh and ahead of the tech curve.

## More **Revenue**

Tailoring player experience to their individual needs is the start of better conversion rates. Wazdan enables operators to know their players better, define segments, and then deploy engagement tools to generate interest, reduce churn, secure VIP potential, and much more.

## More **Reliability**

Wazdan is licenced in New Jersey, Michigan, West Virginia, Pennsylvania, and our games have earned the trust of licensed casino authorities and reputable operators across 20 jurisdictions. Our proprietary Random Number Generator (RNG) has been certified by NMI Metrology & Gaming Ltd (GLI Group) and Gaming Associates Limited.

# Our Commitment to Your Performance

Modern iGaming demands a constant inflow of fresh ideas and cutting-edge features.

At Wazdan, we understand that and go beyond creativity by **continuously innovating and expanding our engagement suite** that keeps players immersed, interested, and always coming back for more.

# Unique Wazdan Features

## Volatility Levels™

Players can quickly choose from 3 volatility levels in Wazdan games, giving players exciting control over their experience. Player choices do not alter Return to Player (RTP) percentages for casino owners.

**Low Volatility** - frequent wins

**Standard Volatility** - balanced prizes

**High Volatility** - highest wins and excitement

## Freedom of Choice™

Every Wazdan game is developed with player agency in mind so that players can adapt their experience intuitively.

**Ultra Fast Mode** - to speed up the reels without impact on RTP

**Ultra Lite Mode** - to launch games up to 5x faster

**Big Screen Mode** - to supersize the reels

# Promotional Tools

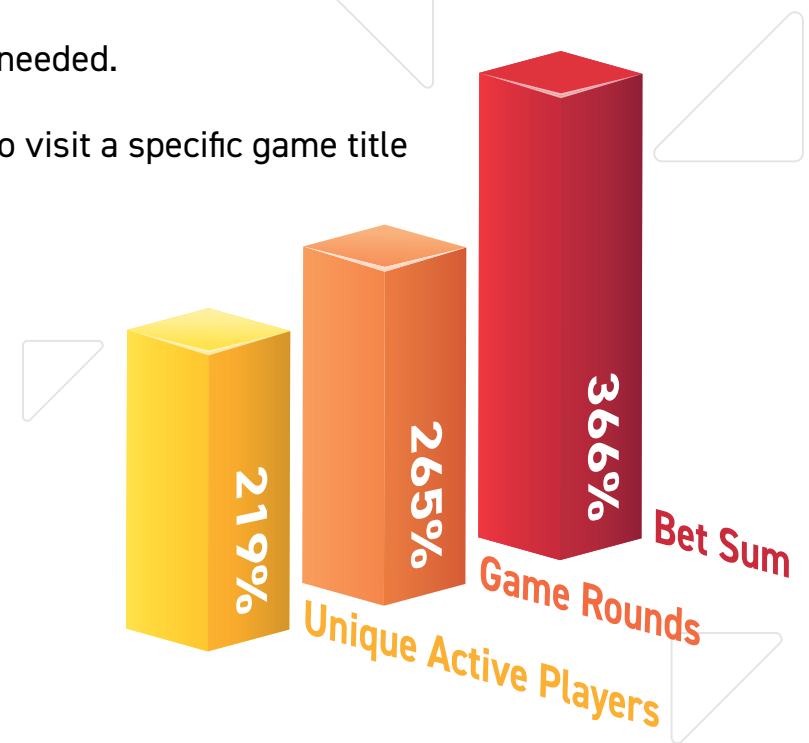

## **CASH** **DROP**

Our intuitive and configurable promotional tool boosts player experience and enhances KPIs, allowing operators to customize iGaming content that seamlessly flows with promo-periods.

It is ready-to-launch on every Wazdan game, without any integration needed.

Wazdan's partners use **Cash Drop** promotions to encourage players to visit a specific game title with the following results:

- ▶ 219% Unique Active Players
- ▶ 265% Game Rounds
- ▶ 366% Bet Sum

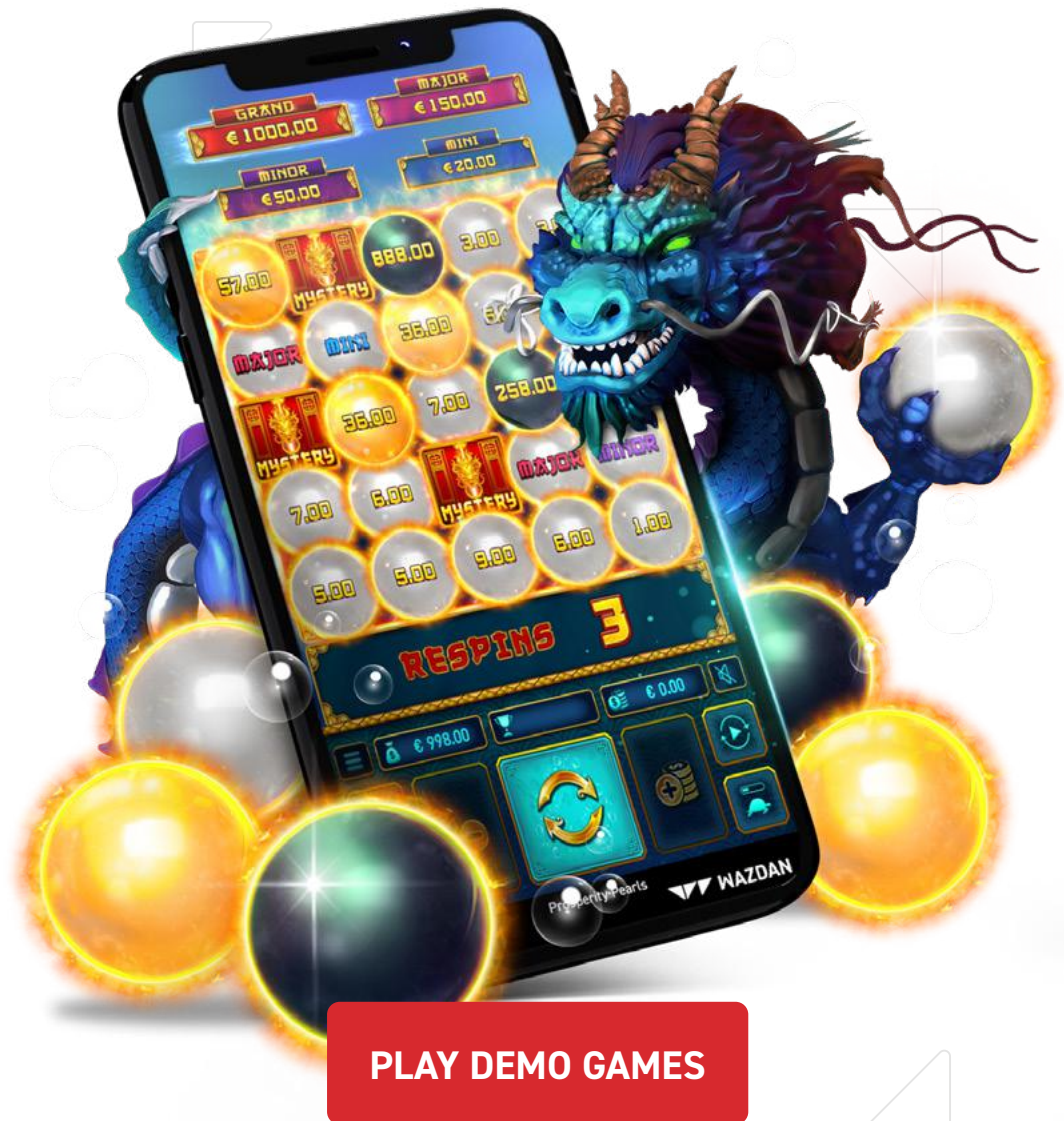

# Hold the Jackpot

By providing the unmistakable flavor that many players seek, our Hold The Jackpot experience immediately gained international recognition among fans, **generating fantastic results for operators across regulated markets.**

The baseline mechanic offers fans an additional bonus round by awarding them with an extra round of 3 re-spins for collecting a certain number of bonus symbols. To keep the excitement going, the count resets on any successful re-spin, enticing players to land the complete set of bonus symbols, and hit the Grand Jackpot.

Committed to innovation, we don't stop there! **Each newly released Hold The Jackpot title receives an upgrade** to maximize engagement: from the number of reels, to additional jackpot prizes, to special multipliers, and more! All of that powered by the sophisticated mathematical model ensuring entertainment and performance!

With more titles in development, we continue going above and beyond to amaze players worldwide.

# Buy Feature

Our evergreen Buy Feature thrills players with on-demand access to desired bonuses. As easy as 2 clicks, it allows fans to instantly spice up the game by paying premium to unlock bonuses of choice.

Our data demonstrates that players who engage with the Buy Feature generate at least 2.5 times more value than players who don't.

# Effortless Partnership

We understand our partners' needs for games to be as accessible as possible.

If you are an online casino licensed in New Jersey, Michigan, West Virginia, or Pennsylvania, **integrating Wazdan slots is simple and straightforward to get started.**

## Integrate Easily

The integration process is ready to go when you are and can take as little as a day. Powered with technical documentation and a proven hassle-free process.

## Launch Quickly

Access all Wazdan content and launch new titles with a single API integration.

## Get Dedicated Support

A dedicated team of senior-level software developers is always there to provide technical support or lighten the workload on your end.

## Engage Users

Every Wazdan game comes out-of-the-box with player engagement tools like Cash Drop and Volatility Levels™ without the need for further integration.

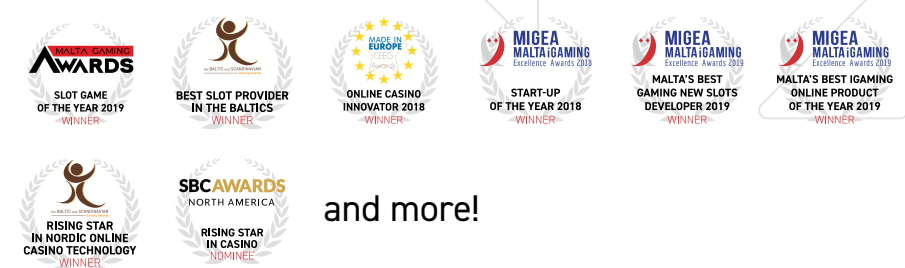

# Why Trust Us?

Wazdan boasts over 10 years of game development accolades. Our philosophy is based on **honesty, creativity, and innovation** - we believe in taking a partnership approach with casino operators helping you grow business beyond digital excellence.
